The Burnstein Story

In 1997, after working for 20 years as a cardiologist, Dr. Gary Burnstein began providing care for patients from a homeless shelter in Pontiac, Michigan. Dr. Burnstein passed away in 2003, but friends, family, and community members honored his dream of providing care to the uninsured by establishing the Dr. Gary Burnstein Community Health Clinic (GBCHC).

Dr. Burnstein's dream of providing free medical care for those in need began in a closet at the shelter, and has since grown into a new home; our patients now receive treatment in a 7000 square foot, state-of-the-art facility, in Pontiac.

The new, larger space allows the clinic to expand its role in the community, treat more patients from a wider geographic area, and offer more preventative care for our patients.

Today, the clinic remains committed to meeting the healthcare needs of low-income, underinsured, and uninsured residents of Michigan. The clinic continues to provide top-quality healthcare to vulnerable community members at absolutely no cost to them, while ensuring that treatment is received in a caring, compassionate, and dignified atmosphere.

Our continued success is made possible thanks to the generous support of our dedicated corps of volunteers, including our medical and dental professionals, pharmacists, and students. We could not sustain our far-reaching impact without funds generously donated from individuals, families, and foundations.

In 2015, the clinic provided over 3000 office visits, and more than 1 million dollars in prescriptions to over 2000 patients

Mission Statement

Our Mission is to provide free primary medical care, women's health care, and dental services to low income, uninsured and underinsured individuals of our neighborhood community in a caring, compassionate atmosphere.
